

# Case study // HS2 Fencing

## CLIENT

Fusion JV

## CONTRACT VALUE

£500k

## DATE COMPLETE

March 2019

## THE CHALLENGE

Our project team had to build relations with the local residence and reassure them of their concerns around the HS2 scheme and the works that would be carried out.

## WHAT WE DID

Stobart Rail & Civil vegetation management team were contracted by Fusion to erect various types of temporary fencing with associated field gates and public right of way gates in the Aylesbury, Buckingham area. In total, there was over 20,000 meters of fencing installed.

## THE RESULT

The standard of work that was delivered here was exceptional, and ahead of schedule despite the challenging delays at the start of the project.
